EDUCATION

04. ECO-LIVABLE

Hengqin has been approved as one of the first batch of national marine ecological civilization demonstration zones, one of the first batch of national ecological protection and construction demonstration zones, and one of the first batch of national low-carbon ecological pilot towns.

PROTECT THE WHOLE REGION OF PRIMITIVE ECOLOGY

LIVABLE PLACE

A number of ecological construction projects such as National Coastal Wetland Park, Great Hengqin Mountain National Forest Park, underground utility tunnel, Tianmu River ecology and landscape project have been started or completed one after another.

RESTORATION OF MARINE ECOLOGY

RESTORATION OF MARINE ECOLOGY

In order to protect marine ecology, Hengqin has launched a 392-hectare marine ecological restoration and renovation project to properly protect coastal mangroves and restore the ecological environment of inshore waters. As of now, 33.15km of the coastline of the seawall has been built, of which 1.72 km is the seawall of the University of Macau section invested by the Macao SAR government. The ecological seawall is about 12.66 km. The ecological restoration of coastal wetlands covers an area of 1.19km.

DEVELOPMENT OF GREEN INDUSTRY

As the frontline among Guangdong, Hong Kong and Macao, the Sci-tech R&D and High-end manufacturing, Culture, tourism, exhibition, and trade. Currently, Hengqin has introduced Chimelong, University of Macau, GMTCM Park, Multi-channel Gas Station supported by China Power Investment Corporation and several financial agencies for a better development of leisure tourism, science and education R&D and energy-saving and environmental protection. And the green ecology industries in the island enjoy a considerable scale.
